Application: Google Calculator
Tester: Ahmad Temoor

Scope: Test the functionality of the calculator component on Google, whereas the calculator only has the buttons *0123456789.=+-×÷AC/CE*.

Requirements: Create an automated end-to-end test suite using a suitable technology.

Technologies used: Cypress.io is used for this project. Tests have been run using a Linux based machine, and on a Chrome web browser.

Test cases: Link to test case spreadsheet:
https://docs.google.com/spreadsheets/d/14-vqCmX4HTiYyJ0EBZ-T_DKiBjRCB3Ih80uCW_DtjOY/edit?usp=sharing

Bugs:
Bug_ID0001 - Infinity minus number that renders infinity
